**Disclosure regarding CARES Act Emergency Financial Aid Grants to Students**

**Dated: June 6, 2020 (April 7, 2022)<sup>1</sup>**

The federal stimulus legislation known as the *Coronavirus Aid, Relief, and Economic Security Act* (“CARES Act”), Pub. L. No. 116-136, signed into law by the President on March 27, 2020, included relief to institutions and students for costs associated with the COVID-19 (coronavirus) pandemic. Under Section 18004(a)(1) of the CARES Act, the U.S. Department of Education (“Department”) has allocated funds to Florida National University (OPEID 025476), at least fifty percent (50%) of which must be used to provide emergency financial aid grants to students for expenses related to the disruption of campus operations due to the coronavirus (including eligible expenses under a student’s cost of attendance such as food, housing, course materials, technology, health care, and child care) (“Emergency Grants”). See CARES Act § 18004(c).

In accordance with the Department’s May 6, 2020, electronic announcement to institutions, the University provides the following information. This disclosure is being provided no later than 30 days following the University’s receipt of its allocation under Section 18004(a)(1) of the CARES Act reserved for Emergency Grants, and will be updated every 45 days thereafter.

1. The University acknowledges that it signed and returned to the Department the Certification and Agreement and assures that it has used, or intends to use, no less than 50 percent of the funds received under Section 18004(a)(1) of the CARES Act to provide Emergency Grants to students.
2. The total amount of funds that the University will receive or has received from the Department pursuant to its Certification and Agreement [for] Emergency Financial Aid Grants to Students is: \$2,942,299.
3. The total amount of Emergency Grants distributed to students under Section 18004(a)(1) of the CARES Act as of the date of this disclosure is: \$1,742,122.<sup>2</sup> The University is currently collecting additional student attestations in order to issue Emergency Grants to additional eligible students.
4. The estimated total number of students at the University eligible to participate in programs under Section 484 in Title IV of the Higher Education Act of 1965 (based on receipt of a FAFSA) and thus eligible to receive Emergency Grants under Section 18004(a)(1) of the CARES Act is: 2,338, as of March 13, 2020 (the current estimated number is 2,591). This does not include Title IV-eligible students who were enrolled exclusively in an online program on March 13, 2020, as these students are not eligible for Emergency Grants.
5. The total number of students who have received an Emergency Grant under Section 18004(a)(1) of the CARES Act is: 1,384. The University is currently collecting additional student attestations in order to issue Emergency Grants to additional eligible students.

<sup>1</sup> Updated per independent audit report for FYE 12/31/2020; update posted April 7, 2022.

<sup>2</sup> Note to updated disclosure: Item #3 initially listed \$1,741,722.48.

6. The method(s) used by the University to determine which students receive Emergency Grants and how much they would receive under Section 18004(a)(1) of the CARES Act:
  1. *Determination of Eligible Recipients:* To be considered for an Emergency Grant, a student must meet the Title IV Eligibility, Enrollment Status, and Attestation criteria established by the University:
    - a. *Title IV Eligibility:* In accordance with Department guidance, a student must establish their eligibility to participate in programs under Section 484 in Title IV of the Higher Education Act of 1965 in order to receive an Emergency Grant.
    - b. *Enrollment Status:* Emergency Grants are available only to students who meet the following enrollment requirements: (1) Was actively enrolled at the University (2) in a Title IV-eligible program (3) with a residential component (4) as of March 13, 2020, and (5) who remain enrolled at the time grant funds are disbursed. This includes any students listed as “active” in FNU’s records, including students on an approved leave that began in Term B of Spring 2020, and those who will return to school in the Fall semester. Students who graduated, withdrew or otherwise are no longer enrolled at the time funds are disbursed will not receive an Emergency Grant. The University seeks to prioritize those students that it believes have the greatest need, as suggested by the Secretary of Education. The University has concluded that those students with the greatest need resulting from disruptions of campus operations due to COVID-19 are most likely to be those students who were enrolled upon declaration of the COVID-19 pandemic (March 13, 2020), and who have remained enrolled while disruptions of campus operations due to COVID-19 remain in effect.
    - c. *Attestation:* To be eligible for an Emergency Grant, a student must submit, by the deadline established by the University, an attestation that they have incurred, or expect to incur, expenses related to the disruption of campus operations due to the coronavirus (including eligible expenses under a student’s cost of attendance such as food, housing, course materials, technology, health care, and child care). Students will be instructed not to submit the attestation form unless they have incurred, or expect to incur, such expenses. Students will also be instructed to return Emergency Grant funds that exceed their relevant expenses.
  2. *Determination of Grant Amounts:* The University plans to award a grant in the amount of \$1,258.47 to each eligible recipient. This amount is subject to change, and was determined by dividing the funding allocation established for Emergency Grants by the number of students potentially eligible for a grant. Under ED’s interpretation, the CARES Act permits institutions to “distribut[e] the funds to all students.” The University has carefully considered ED’s recommendation to prioritize those students with the most need and has determined that the Enrollment Status requirements described above present the best method available to identify such students. The University has considered other objective and uniform sources of available data (e.g., Expected Family Contribution), and concluded that no such data has a sufficient nexus to needs and expenses related to disruptions of campus operations due to COVID-19. The University’s approach appropriately balances the need to identify students with

expenses related to disruptions of campus operations due to COVID-19, with the objective of issuing the Emergency Grants in a prompt and equitable manner.

7. Instructions, directions, or guidance provided by the University to students concerning the Emergency Grants are included as Appendix A through Appendix D. These materials are current as of the date of this disclosure and are subject to change. Subsequent issuances of Emergency Grants, if any, may be in different amounts and subject to different eligibility criteria.

The CARES Act and FNU's Certification and Agreement to the Department contain additional reporting requirements, and the Department has announced that it will provide instructions for completing this reporting in the future. The University is awaiting such further instructions before reporting information directly to the Department.

Questions regarding this disclosure should be directed to Omar Sanchez, Vice President and Director of Financial Aid, at [omarsnc@fnu.edu](mailto:omarsnc@fnu.edu).
